GCI Mobility Phase I

Project Description Update

SACs 618001 through 618218

The project description submitted with GCI's long form application has few changes. The original description is still substantially accurate in regard to network design, technology, spectrum, budget, construction and deployment plans, services and coverage. The service turn-up dates for the four project groups in Bethel were moved from December 2013 to April 30, 2014. The drive tests for these are now scheduled for August 2014. Equipment including radios and antennas has been purchased for all locations; construction activity for the other nine villages is in progress and is expected to complete by the end of the 2014 construction season as described in the original project description schedule.
